To whom it may concern,

Douglas County Fire District #2 was contacted about a month or so ago about some questions regarding what can be done with the area, more specifically the cove area, in your development as it pertains to wildfire danger and defensible space. I came and visited the area and walked around with a homeowner in your development. There was a specific question brought up about what can be done with the vegetation to help keep it maintained and try to reduce any fire hazards.

The area is owned by the Chelan PUD and is managed by another agency. I contacted Chelan PUD and spoke with Lisa Graves and she stated that there has been communication in the past between Chelan PUD and the Aspen Shores HOA. From my conversation with Lisa she stated that any additional conversations and questions should be directed to her. Lisa contact number is 509-661-4196.

Feel free to contact us if you have any additional questions.

Thanks,

Shane Flatness
